Ambient H2O Inc.

Wastewater & Water Treatment Specialist

Mr. Steve Hansen and Preston Montoya,

Thank you for your continued outstanding support and willingness to stand behind the equipment we have at our facility.

I have been in the wastewater/water industry since 1988 and worked in several Treatment Plants both in the Operations and Maintenance departments. I have to say, I have never experienced the support and personal interest you take in the equipment your company has to offer to the industry. The commitment you and your team extend to your customer/client is unheard of In this day and age. We would be hard pressed to find another Wastewater & Water Treatment Specialist of your Caliber.

Thank you again; we look forward to doing many years of business with you and your company.

Joe Creaghe: Chief Plant Operator
